

BOSIS DOO

Valjevo - Serbia | Manufacture of corrugated paper and paperboard and of containers of paper and paperboard

⚠ Risk country operations

Publication date: 11 Jul 2023 (Revised: 11 Jul 2023) Valid until: 11 Jul 2024

Carbon Management Level

Result:
Company with core elements of a GHG management system, including public reporting.

Opportunity:
Focus on setting targets for all 3 Scopes and consider third party verification of disclosed data.

- Insufficient
- Beginner
- Intermediate
- Advanced
- Leader

Strengths and Improvement Areas

Commitment		Weight 25%
Strengths (1)		
Targets		
Strengths		
GHG emissions reduction intensity target established		
Improvement Areas (5)		
Targets		
Priority	Improvement Areas	
Low	Aim at setting absolute Scope 1 emissions reduction targets	
Low	Consider publicly sharing the GHG emissions reduction targets	
High	Set science-based GHG emissions reduction targets via SBTi	
High	Aim at setting absolute Scope 3 emissions reduction targets	
High	Aim at setting absolute Scope 2 emissions reduction targets	

Actions	Weight 25%
Strengths (6)	
Actions Scope 1 & 2 Strengths	
Energy and/or carbon audit	
Use of biomass or other fuel switch to improve energy efficiency and/or lower carbon emission intensity	
Use of waste heat recovery system(s) or combined heat and power unit(s)	
Improvement of energy efficiency through technology or equipment upgrades	
Training of employees on energy conservation/climate actions	
Purchase and/or generation of renewable energy	

Reporting	Weight 50%
Strengths (5)	
Monitoring System Strengths	
Corporate level GHG inventory in place to monitor GHG emissions in accordance with GHG protocol or other GHG accounting standards	
GHG inventory updated at least once per year	
Monitoring Coverage Strengths	
The scope of GHG monitoring covers all operations	
Performance Review Strengths	
The latest review showed that the reduction achievement is ahead of its expected progress	
Reporting Strengths	
GHG emissions report is publicly available	
Improvement Areas (3)	
Monitoring System <div> <div>Priority</div> <div>Improvement Areas</div> </div> <div> <div>Low</div> <div>Consider accounting for product level GHG data in accordance with GHG protocol or other GHG accounting standards</div> </div>	

Reporting

Priority Improvement Areas

Low	Share the progress towards GHG emissions reduction target with internal stakeholders
High	Consider conducting third party verification on GHG emissions reporting

You are receiving this scorecard based on information disclosed to EcoVadis at the time of assessment. Should any information or circumstances relating to any part of the whole scorecard namely to sustainability scorecard or to carbon scorecard change materially during the period of the scorecard validity, EcoVadis reserves the right to place the whole scorecard on hold and, if considered appropriate, to re-assess and possibly issue a revised scorecard. The revision of one scorecard will not affect the other.

No part of this document may be reproduced, modified or amended in any form or manner without prior written permission from EcoVadis. Carbon scorecard can only be visible for companies subscribed to the Carbon Action Module. Provided under contract for exclusive use by subscriber:
